Citrine DISTINCTION

Citrine LLC is a small, certified HUBZone firm specializing in professional engineering design, construction administration, and commissioning services. Our company offers a wide variety of services including detailed design, owner's engineering, construction consulting, feasibility studies, cost estimating, commissioning services, project management, and technical project teaming support.

We support our clients from project inception thru the commissioning of a fully operational facility. We are at the forefront of safety and environmental awareness, and we increase the application of these concepts throughout every project.

Citrine is committed to providing superior client service and creating effective solutions for today's challenging projects.
